Subject: A concerned citizen's view

Dear Sir or Madam,

I do not feel that the DOJ has gone far enough. Actions should be taken which will guarantee that this issue against MS will not have to be addressed yet again. It would appear that the current decision is merely a "wrist slap" which will do nothing to deter MS from continuing the monopolistic practices of which they have been found guilty. I urge you to take genuine and effective action instead.

Sincerely,
John Bohumil
